

Like the House Republican version to repeal and replace the Affordable Care Act, the Senate's bill is an attack on the preservation of essential health benefits, and it will not ensure middle-income Americans can receive sufficient financial support to obtain coverage.

The Senate Republican Better Care Reconciliation Act does not deviate from the damage of the core policies found in the Republican House version of the American Health Care Act, and I just hope my Republican colleagues have a chance to realize this before they take a vote on a bill that will only undermine health coverage for the American people.

INTRODUCING THE PUPPIES ASSISTING WOUNDED SERVICE-MEMBERS ACT

(Mr. PAULSEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAULSEN. Mr. Speaker, according to recent VA analysis, an average of 20 veterans commit suicide per day. Additionally, 20 percent of those who have served in Iraq or Afghanistan suffer from PTSD or major depression.

Addressing the mental health of our veterans needs to be a top priority, which is why I am cosponsoring the Puppies Assisting Wounded Servicemembers Act, or the PAWS Act. It is an additional way to provide better treatment for our soldiers who are struggling with various forms of mental health following their service and deployment.

This initiative allows the VA to create a 5-year program to give organizations grants to pair veterans suffering with PTSD with service dogs to increase their recovery. Studies show that service dogs contribute considerably to one's emotional and psychological well-being.

Mr. Speaker, the PAWS Act will help with the recovery of our veterans who have paid a great price in serving our country. It is imperative that our veterans' mental health remains a high priority and that they have access to as many options as possible.

JUNE IS NATIONAL HOMEOWNERSHIP MONTH

(Ms. MICHELLE LUJAN GRISHAM of New Mexico asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. MICHELLE LUJAN GRISHAM of New Mexico. Mr. Speaker, I rise to recognize June as National Homeownership Month and to introduce three bills to protect homeowners: the Foreclosure Fairness Act, the National Homeowners Bill of Rights Act, and the Keeping Families Home Act.

In 2016, the homeownership rate in the U.S. fell to 62.9 percent, the lowest rate since 1967. Before the Great Reces-

sion, it peaked at about nearly 70 percent.

Unfortunately, in the past 8 years, New Mexico, my home State, has not seen economic recovery. In fact, as of April 2017, New Mexico's foreclosure rate is 40 percent higher than the national average.

Owning a home is not only the American Dream, it also increases economic activity as well as wealth for the owners. The average homeowner has a net worth that is 36 times that of the average renter—\$195,400 compared to \$5,400.

Mr. Speaker, I urge my colleagues to support my bills, which will make the foreclosure process more transparent and fair, prohibit deficiency judgments, help non-English speakers communicate with mortgage servicers, and keep families in their home.

COMPENSATING VICTIMS WHO CONTRACTED FUNGAL MENINGITIS

(Mr. BISHOP of Michigan asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BISHOP of Michigan. Mr. Speaker, I rise today to call attention to a national victim's compensation issue that must be treated with the urgency it deserves.

Nearly one year ago, because of the work of the Members of this body, \$40 million was made available to a victim's compensation program for people who had contracted fungal meningitis as a result of tainted NECC steroid injections distributed in 2012, which resulted in convictions with multiple people. That money was delivered to the Massachusetts Attorney General's Office 9 months ago, yet not a single claim has been paid.

Mr. Speaker, these victims, many of whom are from my district, need justice. We are nearing the 5-year mark of this terrible outbreak, and families across America need this Congress to continue to fight for them.

Against their own will, they became victims of this terrible tragedy, and they certainly do not need to also be victims of more bureaucratic red tape. Enough is enough. It is time to use these funds we secured and start compensating these victims.

I stand ready, willing, and able to help in any way I can, but I urge the officials in Massachusetts to treat this matter like the priority it truly is.

NEW JERSEY MAYORS UNDERSTAND COMBATING CLIMATE CHANGE

(Mrs. WATSON COLEMAN asked and was given permission to address the House for 1 minute.)

Mrs. WATSON COLEMAN. Mr. Speaker, I stand here proud to represent the New Jersey 12th Congressional District. I stand here proud that Mayor Eric Jackson of Trenton, Mayor Liz Lempert of Princeton, Mayor Francis Womack of North Brunswick,

and Mayor Colleen Mahr of Fanwood led the charge in understanding that our global responsibility to combating climate change starts at home.

By passing resolutions that pledge their commitment to the Paris climate accord, these cities understand that American exceptionalism means we lead from the front, not from the back. I consider myself very fortunate to have lived my entire life in a State that has so many progressive nonprofit organizations and individuals that are working every day to protect public health, our environment, and our quality of life.

I commend these cities in my district and the elected officials, the business leaders, and the private citizens nationwide who have chosen to ensure the cultivation and preservation of this Earth for generations to come.

JUNE IS ALZHEIMER'S AND BRAIN AWARENESS MONTH

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, June is Alzheimer's and Brain Awareness Month. Alzheimer's is the sixth leading cause of death in the United States, and it has reached crisis proportions.

There is no effective treatment, no means of prevention, and no method for slowing the progression of the disease. Sadly, one in three seniors will die with the disease.

According to the Centers for Disease Control and Prevention, 5 million Americans were living with Alzheimer's disease in the year 2013. This number is expected to almost triple to 14 million by the year 2050.

Mr. Speaker, this is unacceptable. Alzheimer's also has a devastating impact on caregivers and loved ones of those diagnosed with the disease. More than 15 million Americans provide unpaid care to family and friends living with Alzheimer's and other dementias.

Compared with caregivers for people without dementia, twice as many caregivers for people with dementia indicate substantial emotional, financial, and physical stress.

Mr. Speaker, the time to act is now. Let's join the fight. Let's take the pledge to raise awareness about Alzheimer's disease, and to never stop searching for a cure.

PTSD AWARENESS MONTH

(Ms. PINGREE asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. PINGREE. Mr. Speaker, because June is PTSD Awareness Month, I rise today to recognize an extraordinary organization in my district that is making a huge impact on the lives of Maine
